#### Chapter 4 Rural Housing

##### (a) Analysis of figure 4.2 Rural one off housing in County Kildare 1998 to 2015

Under County development plan 1999 to 2005 there was on average of 700 houses Yearly granted on rural sites

Under County development plan 2005 to 2011 there was on average of 380 houses yearly granted on rural sites.

Under County development plan 2011 to 2015 there was an average of 76 houses yearly granted on rural sites.

Year 2010 to 2011 number of houses granted 269

Year 2012 to 2013 number of houses granted 122

This analysis shows that the extremely restrictive policies that we have in the County development plan from 2011 to 2017 are working to the desired affect of reducing one-off housing to a very acceptable level in County Kildare.

##### (b) Table 4.2

This proves since 2005 the County development plans that was passed to date has reduced substantially amount of one-off houses being built in rural areas. 2011 to 2017 plan has proven to be effective

(c) I would propose that County development plan 2017 to 2023 reflect the very same policies as we have in the 2011 to 2017.

### 4. Councillor Mark Wall

That Kildare County Council maintain the rural housing housing policy from the 2011-2017, removing the proposed one in the new development plan. The existing plan has allowed for proper rural development . The proposed plan is regressive and is in my

opinion detrimental to sustainable development in rural Kildare. Not allowing the third member of a farming family or the second member of a genuine rural developer to live where they belong is not acceptable. I believe such a plan should and will be challenged.

**5. Councillor Martin Miley**

4.12.1

Introduction in the way it is constructed indicates that 90% of residents do not contribute to rural communities. Either rewrite remove as all rural residents contribute to rural communities whether it's true sporting community church or any other aspects of life to enrich or grow that community.

**6. Councillor Martin Miley**

Map 4.1

I am very concerned that these tables are pitching rural against urban. I propose they be retained with additional cross analysis from County development plans 2005 to 2011 and 2011 to 2017.

**7. Councillor Martin Miley**

Request the removal of Table 4.3

**8. Councillor Martin Miley**

Request the removal of Table 4.4

**9. Councillor Martin Miley**

4.12.4 Rural countryside

Explain the definition of urban generated rural housing give example of this type of housing being granted under 2011 to 2017 plan.

**10. Councillor Martin Miley**

Replace Table 4.5 with the existing Rural Housing Policy (CDP 2011-2017)  
In your response please show existing policy.

**11. Councillor Mark Lynch**

In Policy Zone 1, that the distance is opened from 2km to 20km

**12. Councillor Mark Lynch**

In Policy Zone 1, that the distance is opened from 4km to 20km

**13. Councillor Martin Miley**

RH 2: would be concerned restricting the number of developments per one family to 2 units.

Propose to remove this policy.

**14. Fine Gael**

That RH2 reads as follows

To ensure that a grant of planning permission for a rural one off dwelling to a farming family member in the rural area on the basis of their being actively engaged in the running of the family farm (Applicant Category 1) will not preclude any other member of the family from applying for planning permission on the basis of any other of the reasons for which a person may be eligible for a dwelling in the rural area.

**15. Councillor Martin Miley**

RH 3

would be concerned restricting the number of developments per one family to 2 units.

Propose to remove.

**16. Fine Gael**

That RH3 be deleted from the development plan.

**17. Fine Gael**

That RH6 be deleted from the development plan.

**18. Fine Gael**

That RS9 reads as follows

To recognise and promote the agricultural and landscape value of the rural area.

**19. Councillor Martin Miley**

RS10

Add-on to allow new build on Existing site

**20. Fine Gael**

That RS10 reads as follows

To encourage the appropriate re-use and adaptation of the existing rural residential building stock in preference to new build where financial viable.

**21. Fine Gael**

That RH 11 read as follows

To recognise that exceptional health circumstances, supported by relevant documentation from a registered medical practitioner, may require a person to live in a particular environment. Housing in such circumstances will generally be encouraged in areas close to existing services and facilities and in Rural Settlements. All planning permissions for such housing granted in rural areas shall be subject to a 7 year occupancy condition.

**22. Councillor Martin Miley**

4.13.1 RH 12

Remove this policy. Hedgerows can be re integrated

**23. Fine Gael**

That RH 12 reads as follows.

To ensure that, applicants comply with all local siting and design considerations, applicants will be required, where a design issue is raised to supply a photo montage of houses in the vicinity of their site as a design rationale and appropriate landscaping of proposed developments using predominantly native species as per Table 19.5 of this plan

**24. Councillor Mark Lynch**

4.13.1 (vi) refers. That the council do not preclude new wastewater treatment technologies such as reed beds once they comply with national regulations.

**25. Fine Gael**

That RH13 be deleted from the development plan.

**26. Fine Gael**

That RH14 reads as follows.

To preserve and protect the open character of transitional lands outside of settlements in order to prevent linear sprawl near towns, villages and settlements and to maintain a clear demarcation and distinction between urban areas and the countryside. This policy will not affect applicants who comply with the schedule of local need.

**27. Fine Gael**

That RH 15 reads as follow.

To discourage ribbon development (defined as five or more houses alongside 250 metres of road frontage). The Council will assess whether a given proposal will exacerbate such ribbon development, having regard to the following:

- (i) The circumstances of the applicant, if no other site is available the application will be considered in a positive manor.
- (ii) The degree to which the proposal might be considered infill development;
- (iii) The degree to which existing ribbon development would coalesce as a result of the proposed development;

Notwithstanding the above, special regard will be given to the circumstances of immediate family members of a landowner on infill sites in a line of existing dwellings with 5 or more houses alongside 250 metres of road frontage.

**28. Councillor Martin Miley**

RH 1

RH 16

That this policy should be made more prominent in the plan

**29. Fine Gael**

That RH 16 reads as follows

To consider applications for the provision of a recessed cluster form of development. The cluster shall be designed in such a way that is appropriate to the rural context and shall be set back into the landscape from the public road. Clusters shall not exceed five houses and will be subject to normal, planning, siting, design and local need considerations. Where there is a likelihood of more than one applicant seeking

planning permission over a period of time, the Council will engage with the landowner to provide for an appropriate site layout capable of accommodating a recessed cluster development. Notwithstanding the above the Council understands that this policy would not be suitable in respect of an application made on the basis of full / part time employment in agriculture (including commercial bloodstock/horticulture).

**30. Councillor Mark Lynch**

4.26 (RH17)

That other apart from family members are not precluded from so called “backland development

**31. Fine Gael**

That RH 17 read as follows

To only consider family members for backland development. The proposed development shall have no negative impact on third parties / neighbouring property owners and viable sites with sufficient independent percolation areas will be required in order to meet technical guidelines. Sufficient screening will be required to screen the house from adjacent homes and this has to be in place prior to occupation of the house. Single storey bungalow and dormer type houses will be allowed in such backland locations in close proximity to other dwellings two storey type dwellings will only be considered where a 50 meter separation distance is achievable

**32. Councillor Martin Miley**

RH 18

Add-on after existing entrance. Or close Existing entrance and reopen dual entrance in a more appropriate location

**33. Fine Gael**

That RH 18 reads as follows.

To restrict new accesses for one-off dwellings onto regional roads, where the 80km/hr speed limit applies in order to avoid the premature obsolescence of regional roads, (see Chapter 6), through the creation of excessive levels of individual entrances and to secure investment in non-national roads. Where applicants comply with Policy RH 4 and cannot provide access onto a nearby county road and therefore need to access

a Regional Road, permission will only be granted to maximise the potential of an existing entrance.

**34. Fine Gael**

That RH 20 reads as follows.

Given the rise in rural crime the following is acceptable as entrance treatments in a rural area. All applications for a dwelling in a rural area should include detailed drawings and specifications for entrance treatments. The roadside boundary should ideally consist of a sod/earth mound/fencing planted with a double row of native hedgerow species e.g. Hawthorn, field maple, holly, blackthorn, hazel etc. Block walls and gates with a maximum height of two meters are permitted.

**35. Councillor Mark Lynch**

4.27 (RH21) (i)

That landholding is moved from 10ha to 5ha

**36. Fine Gael**

That RH 21 reads as follows.

To ensure that planning applications for a rural dwelling on the basis of the establishment of a fulltime / part time equine or other rural enterprise on site will generally be favourably considered, having regard to the following criteria:

- (i) The landholding shall comprise a minimum of 5 ha.
- (ii) All other siting and design considerations will be taken into account in assessing the application.
- (iii) It must be demonstrated that the nature of the enterprise is location dependent.
- (iv) The minimum requirement of 5 ha will not apply to an applicant who holds a professional horse training licence.

**37. Councillor Martin Miley**

4.13.4 RH22 RH23

Very restrictive need to preserve our heritage some of these buildings very poor repair and would restrict the overall development of employment and farming generation. Policy should reflect saving what's worth saving and not for the sake of it.

**38. Councillor Mark Lynch**

4.28 (vii) refers. That the 25% maximum floor increase is removed and no % listed, other than what is suitable to location site.

**39. Fine Gael**

That RH 25 reads as follows

To accept the replacement of a dwelling other than a vernacular dwelling in circumstances where such a dwelling house is habitable, subject to the following:

- (i) The structure must last have been used as a dwelling and the internal and external walls and roof must be intact.
- (ii) A report from a suitably qualified competent person shall be submitted to verify that the dwelling is habitable but that replacement of the dwelling is the most sustainable option.
- (iii) The design of the proposed replacement house shall be of a high standard and its scale and character appropriate to the site and to existing development in the vicinity and to the rural area.
- (iv) Normally a condition to demolish the existing dwelling will be included in any grant of permission.

**40. Fine Gael**

That RH26 reads as follows.

To facilitate the sensitive replacement of a structurally unsound derelict dwelling as an alternative to the construction of a one off dwelling elsewhere in the countryside.

Documentary evidence in the form of a structural survey and photographs shall be submitted to accompany the application. The proposed applicant shall comply with local need criteria identified in the Plan and shall be subject to an occupancy condition.

**41. Councillor Martin Miley**

RH 27

Remove no suitable family-owned site in adjoining county

**42. Fine Gael**

That RH 27 reads as follows.

To assess applications for one-off housing, in areas bordering neighbouring counties, where the proposed site is located on family land within County Kildare, at a distance of up to 4km located in Zone 1 and up to 6km located in Zone 2, from the county boundary. Applicants will be required to demonstrate, to the satisfaction of the planning authority, that no suitable family owned site is available in the adjoining county and that all other aspects of rural housing policy including local need<sup>4</sup>, siting and design are complied with. The applicant shall also fully demonstrate that they are building their first rural dwelling and that it will be for their permanent place of residence.

**43. Councillor Martin Miley**

4.13.8 Rural Nodes

Policy unworkable and will not deliver and the units as you have to comply with rural housing policy. rh 28 rh 29 rh30.

**44. Councillor Mark Lynch**

4.29 refers. That the council explain the definition of a rural node within the plan and leave the list open for further additions for areas which may have been overlooked.

**45. Councillor Martin Miley**

RH 33

Remove May and replace it with will

**46. Fine Gael**

That this Council adopt a rural housing policy as follows.

In the case of an application for a one off rural dwelling, this Council will give the applicant the full benefit of the planning process through the use of further information and clarification of further information to reduce the financial burden on applicants at planning stage.

**47. Fine Gael**

That this Council adopt a rural housing policy as follows.

That the Council recognises the role of part time farmers in County Kildare and their requirement to live within the vicinity of their farming enterprise. Mandatory information to be supplied with an application for a one off rural house is as follow.

- (i) Herd number from the Dept. of Agriculture in the applicant's family name.
  
- (ii) Field identifier codes (plot numbers) from the Dept. of Agriculture in the applicant's family name.

**48. Fine Gael**

That this Council adopt a rural housing policy as follows.

That the Council accepts the site selection of an applicant for a one off rural dwelling who is a member of a farming family on the basis that an alternative site in the ownership of an immediate family member would be damaging to the farming enterprise by virtue of its location or that a site be strategically located on the family home place or on an out farm in the ownership of the applicants family to improve the security of the farming enterprise given the rise in rural crime.
