Subject: Naas Town Development Plan review Submission
Importance: High

A Chara,

I recently attended the public consultation meeting/workshop on the Naas Town Development Plan.

Our group facilitator reported back that our group would like to have a **policy to make Naas Town Age Friendly** included in the new plan.

Another group, designated to the county of Kildare, rather than the town of Naas, requested a **policy to seek Age Friendly status for County Kildare** would be included in the plan..

We suggested that the consultative process used by County Louth could be used in Naas and County Kildare. .

In particular, we requested **public seating throughout the town, along the streets.**

(This would enable older persons with reduced mobility to be socially included.)

The height of these seats is crucial as many older persons need raised seating to facilitate use.

Raised seating should also be available in Post Offices, banks, at bus stops, and any areas where Older Persons are likely to be in a queue.

I am formally requesting that these four objectives will be included in the review and that this submission will be accepted.

Many thanks for receiving this submission.
Beannacht Dé ort,
