### Introducing National Parents Council Primary Early Years Services

The transition from pre-school to primary school can be one of the most important transitions that your child will make, and this process doesn't necessarily begin when your child finishes pre-school or starts primary school. It can begin when you and your child start to think about this transition.

By providing this session for you, we can support you to support your child to make a smooth transition between pre-school and primary school. The success of this transition can benefit your child all the way through primary school, providing better outcomes for your child socially, emotionally and educationally.

#### At this session you will:

- ⇒ Meet other parents whose children are starting primary school
- ⇒ Explore the possible changes you and your child may experience during this transition
- ⇒ Learn how you can support your child at home through play and meaningful interactions
- ⇒ Receive a brief overview of the primary school curriculum, how and what your child will
- ⇒ learn Be supported to prepare for new routines for both you and your child

We are delighted to announce that a representative from the NCSE (National Council for Special Education) will also be in attendance to talk to parents and guardians, outlining the supports available to children with special educational needs, in both pre-schools & primary schools, and to provide information which will help parents support their child's transition from preschool to primary school.
