The entrance looks like this.

The doors open automatically when you walk in or out.

There is a noticeboard at the entrance that tells you what is going on in the library.

The toilet
is by the
entrance
too.

There are computers in the library which you can use.

- ▶ These two are at the front of the library, in the Young Adult section. There are four more computers just past the library desk, near the Children's Section. To log on, use your library card number (written on your card), and 4-digit PIN which you set with the librarian.

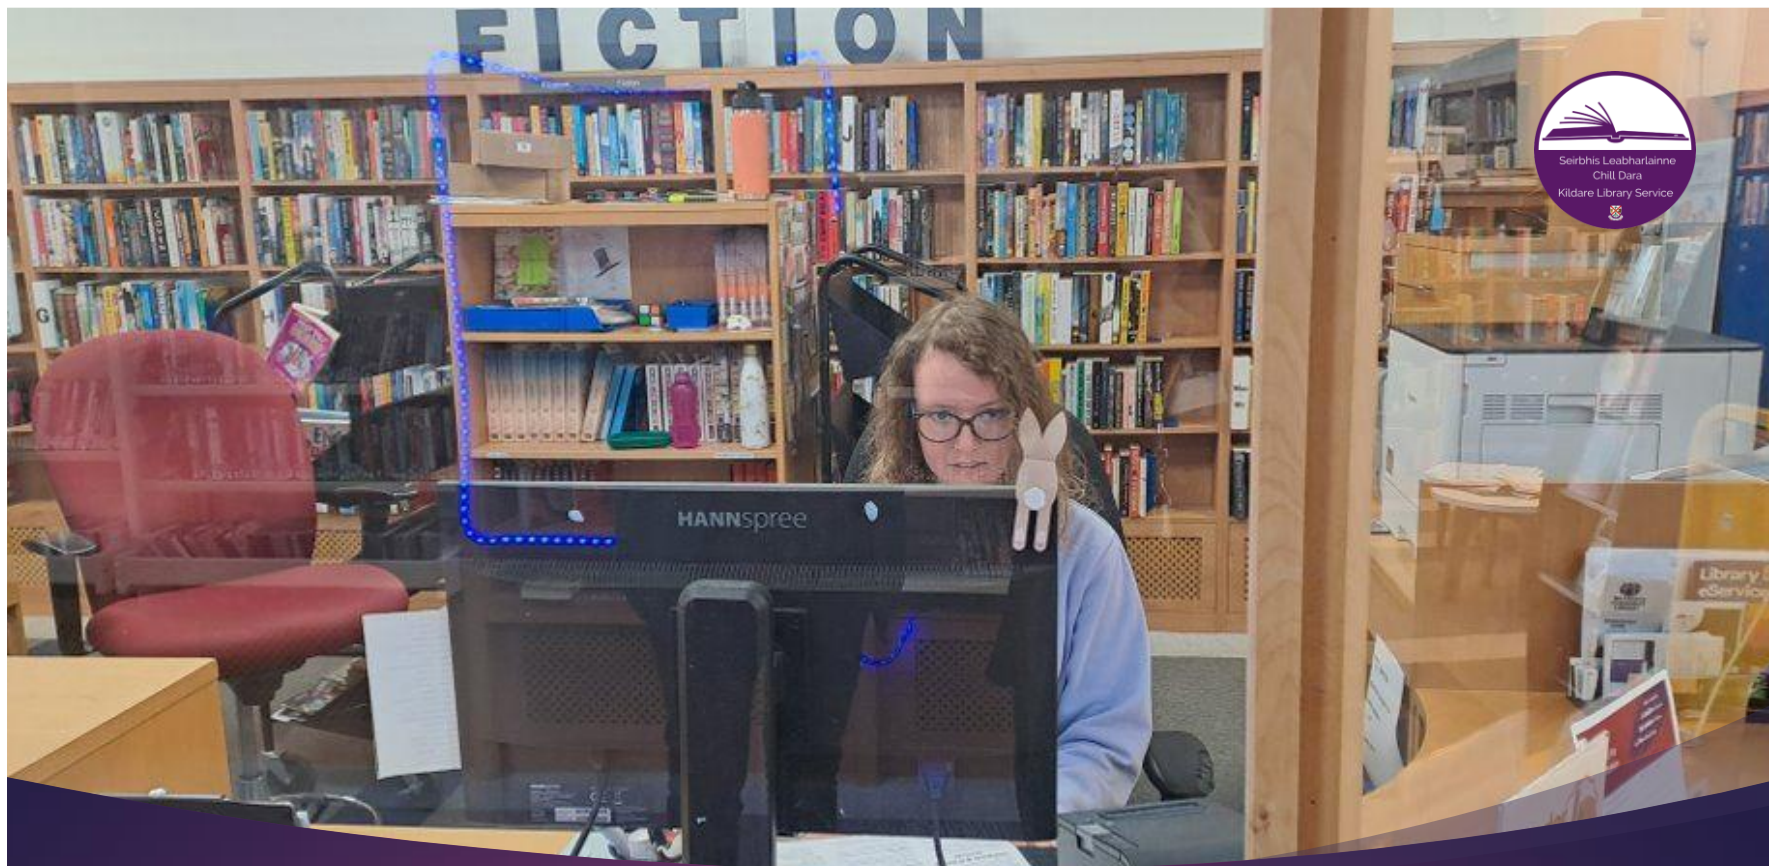

You can
photocopy,
scan and
print too.

There is even a 3D Printer where you can make really cool things.

The library staff at the desk are there to help you.

The library has the day's newspapers and some magazines that you can read, and comfortable seats to sit in.

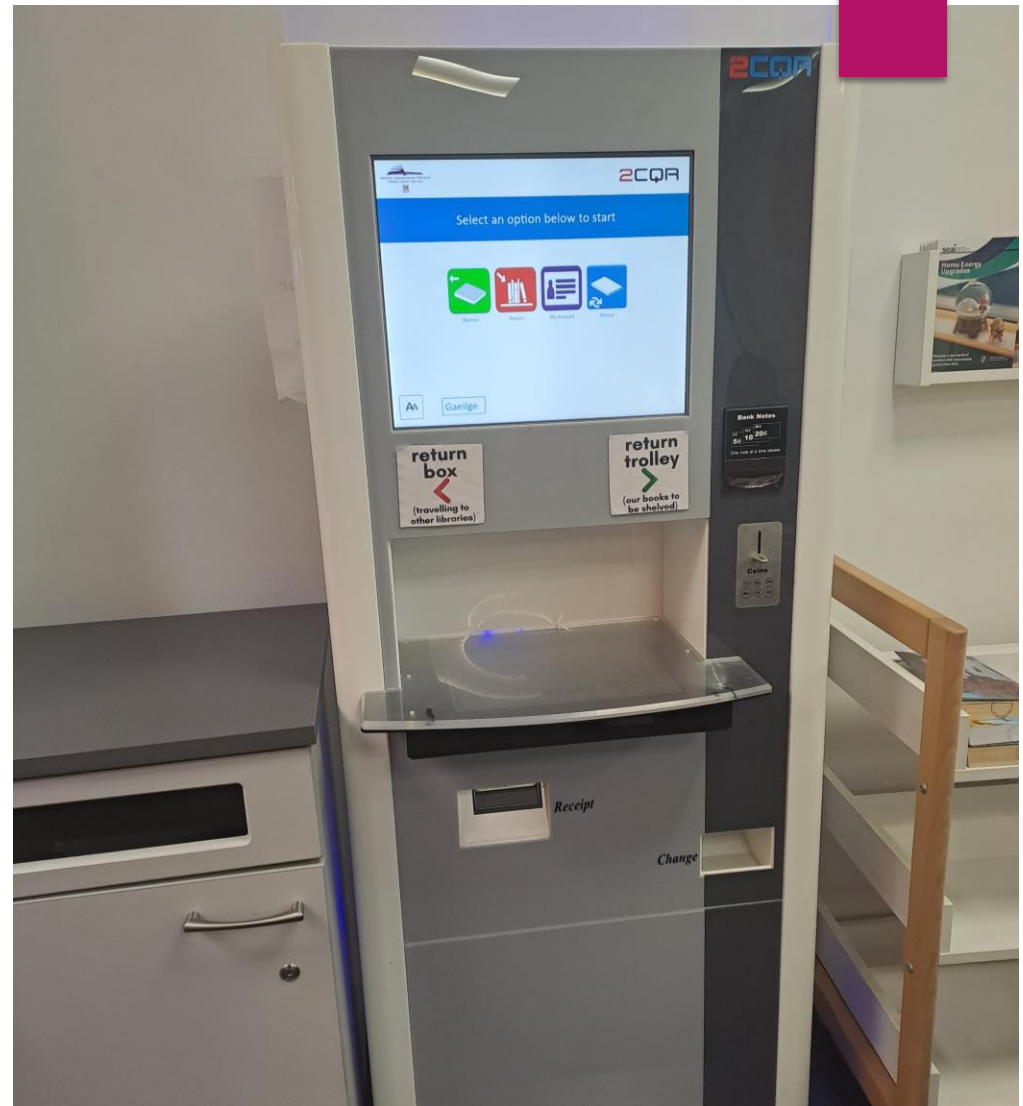

The library is quiet most of the time, but sometimes it can be louder and busier. It's okay to make noise too!

You can borrow DVDs and video games as well as books at the library.

There are two machines for checking in and returning books. One is by the front door and one is beside the desk.

You can leave the books on the trolley next to the self-service machine when you have returned them.

On the way to the children's area, there is a herb garden and a fish pond that you can look out at.

We also have lots of books, audiobooks and DVDs in our childrens' area.

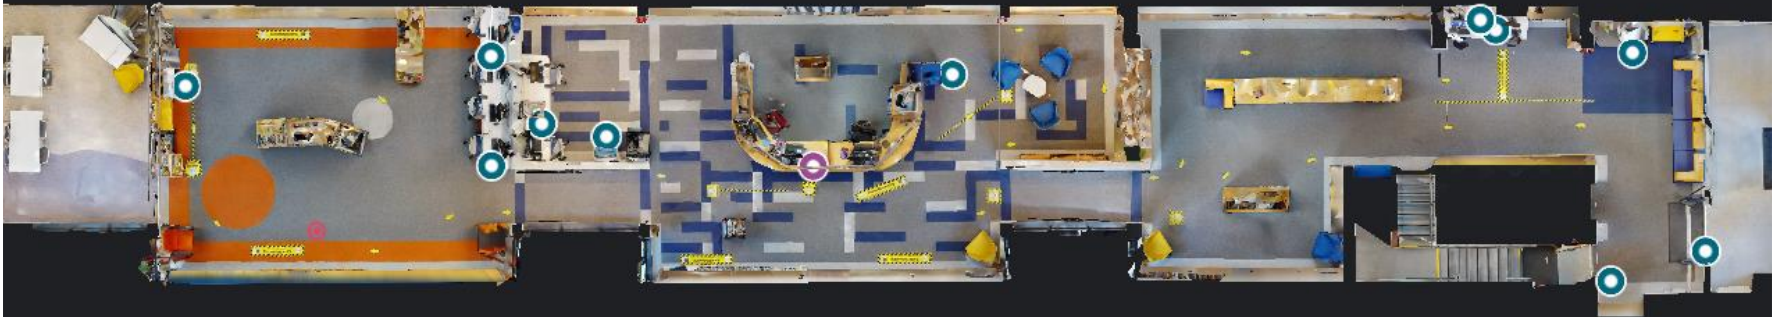

You can sit at the tables at the back of the building to read or study. Sometimes there will be events happening in this space. To check if it's free, you can ask one of the library staff.

We also have noise-cancelling headphones and a reader pen that you can use during your visit.

▶ If you like, you can put your name on the waiting list to borrow the reader pen from the library.
